

80 high-school teams from across the nation. 23 topic-based competition categories. February 27, 2021.

2021 Virtual Invitational Competition Science Olympiad at the University of Pennsylvania (SOUP) Nonprofits and Community Organization Partnership Information

What is Science Olympiad?

A national science competition involving middle and high school students in over 7600 teams across the US, where students compete on the regional, state, and national level in topic-based categories ranging from ornithology to forensics and truss-building to anatomy.

More About Us

At Penn, SOUP is a student-run organization that aims to promote science education.

Each spring we organize one of the most competitive high-school-level Science Olympiad invitational tournaments in the country.

Due to COVID-19, our tournament will be a virtually-connected event that aims to provide a learning experience that parallels our in-person tournament.

Students from all over the country will compete in our tournament from their homes.

Our Objective

We want to build co-beneficial relationships to help both your group and ours grow our reaches and impacts. We can help increase visibility for your group and cause and help you build a network at Penn.

What We Are Looking For

Building Our Network

- put us in touch with potential guest speakers
- introduce us to industry specialists
- intern opportunities (undergrad and recent graduates)

Splitting One Day-Of Costs

- t-shirts (usual total cost is 1800 - 2200)
- medals/trophies (usual total cost is 1100 - 1800)

please reach out to us for our 2021 categories!

What We Can Do For You

Build Your Audience

- we have an audience of dedicated high school students, parents, teachers and coaches from schools across the U.S., and ~200 passionate Penn undergraduates

Increase Your Visibility

- logo and link to your page on SOUP website landing page
- booth at event/virtual panel at event
- logo on volunteer shirts/logo on cover page of SOUP tests
- shoutout/ small video clip during our awards ceremony
- promotional email out to internal list-serv
- a post on our social media
- a fundraising campaign with us

Learn More!

We would love to chat over phone or video call if you have any interest in learning more about SOUP and what we offer. Please reach out to Yi-An Hsieh at yh667@seas.upenn.edu or connect with us through www.pennscienceolympiad.org.
